Salute to Wilma Schields

The North Quincy High School Class of 1985 dedicates this book to Miss Wilma Schields. We salute Miss Schields for her many years of service and dedication to the students of North Quincy. She plays an important role in the continuing advancement of science at North Quincy.

She is an outstanding teacher and a caring individual. We were lucky to have her as a member of the North Quincy faculty for so long.

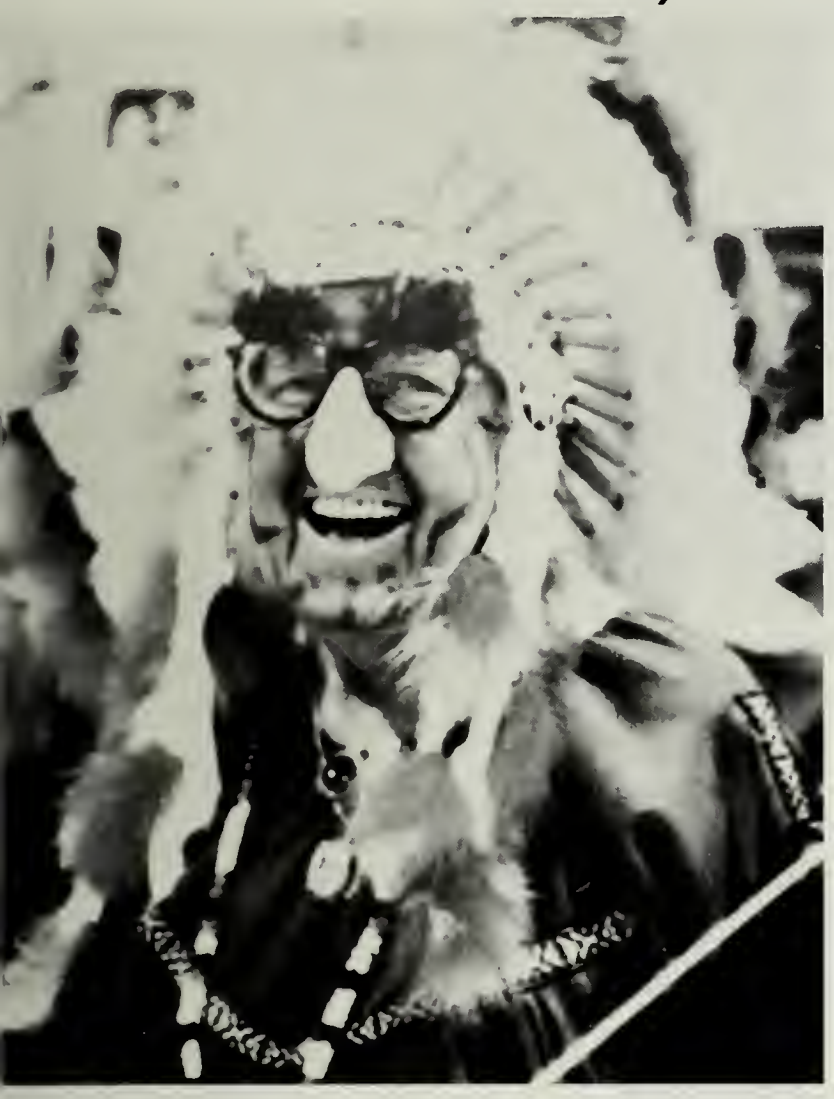

We hope Miss Schields enjoys a long, happy retirement and that she never forgets the people at North, for she is a woman who will never be forgotten.

For forty-two years of devoted service, we thank you!

S.A.D.D. Committee

The Students Against Driving Drunk Committee have been involved in school activities since it began in 1983. This year Brian Holloway, a member of the New England Patriots and graduate of Stanford University was a guest speaker for a S.A.D.D. assembly. He made a thought provoking speech that had a significant effect on many in the audience.

Hopefully, the S.A.D.D. Committee and its members will continue to serve the community with the dedication and perserverance it has displayed in the past.

With things as hectic as they've been in the past year, it hasn't been easy organizing this yearbook. As a committee, we would not have been able to do it without the help of our advisor, Ron LaQuaglio. We know it hasn't always been easy or convenient for you to stay after school. We just want you to know how much we appreciate all the time and effort you've put into the production of our yearbook. Thank you!!!
